

DR. SLIME'S MAGIC OF CHEMISTRY SHOW'S

Science Motivator

What is It?

DR. SLIME

is an the Archetype of a Crazy Scientist character, with slime green hair. His mission is to excite, educate, and entertain. Each of his eye catching demos is followed up with a complete discussion of the scientific principles involved.

Artists Rendering of Dr.Slime.

This program is an out-reach program created by Michael Garlick. The show travels to many (30 max.) Mid-Michigan Schools each year. Our traveling show presents in two different formats: Large group demos using scaled-up materials; or individual classroom hands-on experiments.

When sponsorships or grant funding can be obtained, this show is given free of charge, otherwise a fee is requested to help fund these continuing activities in our Community. Many of our demos are small versions of exhibits you might find at the Pacific Science Center in Seattle, Washington.

- Plasma Ball
- Jacobs Ladder
- Square Bubbles
- Levitron (maglev)
- Fog Ring Physic's
- Goblins Brew Tm.
- Polymers (slime)
- Fun with Liq. N₂.

Michael T Garlick is the Laboratory Manager @ Delta College. He is trained in Small Scale Chemistry, and is always glad to share his chemistry knowledge with teachers, members of the community , and students working on Science Fair Projects.

He performs as Doctor Slime, for Delta College 2-3 times each year on a Volunteer basis, or for various scheduled programs. He also has performed for, or been underwritten by major corporations to perform larger shows. GM, Midland Centre for the Arts, The Childrens Zoo Of Saginaw, SETV (Saginaw) malls, conventions, and Science Centers (Like the Seattle Science Center) are all places he performs. If you wish to have Doctor Slime come to your school for a show, or are looking for idea's or advice for your classroom.

Please Contact
Mike Garlick.

How Does it Work?

• **DR. SLIME** will arrive at your school 45 min. before the first group session. With your help he will be able to unload and set-up the equipment.

• Large group shows can handle up to 400 students.
• Classroom activities are limited to 30 per session.
1 helper /10 students.

• Multiple sessions can be easily arranged for you.
• Plan today for your school! .

Teachers!

Do you want to:

- Get your students more excited about science?
- Give your class a chance to work with hands on activities & see the principals of real sciences at work?
- If so, Dr.Slime can help, see how today.

Continued on Page 3

What is the Cost?

We had to institute cost matching for the program just to keep our costs offset. Cost matching by schools allows us to develop new exhibits, repair displays, and purchase supplies. Several foundations have agreed to underwrite the show when asked by schools.

Many PTO groups or local business sponsors will underwrite Dr.Slime if you ask them to support your school. Average Show \$300
